MEAN & MERN Stack Developer

Hyderabad,Sindh

☞ <https://zetsol.ae/>

I have been working as a **MERN & MEAN Stack Developer** at Zetsol, contributing to major projects including **Sehat Kahani** and **Neem**.

- **Sehat Kahani** is a leading telemedicine platform in Pakistan, enabling online doctor consultations and patient management. I developed and optimized multiple front-end and back-end modules using **Angular 6, React.js, Node.js (Koa.js)**, and **MySQL**, ensuring performance, scalability, and security.
- **Neem** is a digital financial platform that provides secure online payment and wallet solutions. I contributed to developing user dashboards, transaction modules, and API integrations to support seamless and secure digital transactions.

My role includes developing new features, fixing critical issues, improving UI/UX responsiveness, and ensuring smooth API communication between services. I actively collaborate with cross-functional teams and continuously learn emerging technologies to deliver modern and efficient solutions.

Saylani Mass IT Training

Jul-2025 - Present

Web & App Development Instructor

- Conduct hands-on training sessions in Web and App Development for beginners and intermediate students.
- Teach front-end and back-end technologies including HTML, CSS, JavaScript, React, Node.js, and databases.
- Guide students in building responsive websites and real-world MERN stack projects.
- Mentor students in coding best practices, version control (Git/GitHub), and deployment.
